

## Transparency Report - Government Removal Requests

January through June 2015

	Govt. Removal Requests	Govt. Specified Items	Compliance Rate
India	2	2	0%
Ireland	1	2	0%
United Kingdom	2	10	50%

### Illustrative Examples

**India** - We received a request from an Indian law enforcement agency to remove an allegedly defamatory comment posted to a Yahoo Group. We rejected the request because it did not include a legal justification and the comment did not violate Yahoo's Terms of Service.

**United Kingdom** - We received a request from a UK law enforcement agency to remove nine Flickr images because they allegedly promoted and glorified terrorism. We reviewed the images and removed one of them after verifying that it violated Flickr's Community Guidelines. We did not remove the other eight images because in context they appear to expose and condemn violent extremism.
